Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 8-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claims 8-10 depend from canceled claim 2. It is unclear what claims 8-10 are now supposed to further limit. Claims 8-10 should be deleted, because if the dependency of claim 8 were changes so that claim 8 was dependent from claim 1, claims 8-10 would be duplicates of claims 3-5.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 6 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Kobrehel (US Patent 5,927,020).

Kobrehel discloses a door trim structure for automobiles, which is made of a thermoplastic resin (column 7, lines 11-17) and of which the inner door panel and the

Art Unit: 3612

door trim (12) are integrally blow molded (Figure 4), wherein the inner door panel includes a functional member attachment portion (20).

Regarding claim 6, Kobrehel discloses door trim structure for automobiles as claimed in claim 1, wherein the thermoplastic resin is a polypropylene resin (column 7, line 17).

Regarding claim 11, Kobrehel discloses a door trim structure for automobiles as claimed in claim 1, wherein the functional member attachment portion includes recesses and protrusions.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Art Unit: 3612

8. Claims 3-5 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kobrehel in view of Grimes (US Patent 5,040,335).

Kobrehel discloses a door trim structure for automobiles as claimed in claim 1.

Kobrehel does not disclose that the inner door panel also acts as a shock absorber.

Grimes discloses a door trim structure which also acts as a shock absorber, wherein the inner door panel includes a plurality of recesses on its surface (28,30) wherein the recessed inner door panel is sealed with the door trim.

Kobrehel and Grimes are analogous art because they are from the same field of endeavor, i.e., door inner panels with door trims.

At the time of the invention, it would have been obvious to one of ordinary skill in the art to make the inner door panel of Kobrehel a shock absorbing member which includes recesses in the inner panel as taught by Grimes.

The motivation would have been provide shock absorption in the inner door panel to protect the passenger in an accident.

Therefore, it would have been obvious to combine Grimes with Kobrehel to obtain the invention as specified in claims 3-5.

Regarding claim 7, Kobrehel does not disclose what the melt index of the polypropylene resin is. However, the melt index would have been an obvious mechanical expedient. The polypropylene resin would have been selected by one of ordinary skill in the art to meet all of the engineering requirements, such as strength and compatibility with the blow molding machine.

Response to Arguments

9. Applicant's arguments with respect to claims 1, 3-10 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
